

Career Research Implementation

Materials:

Books (such as Career Handbooks)

Websites (such as O*NET)

Copies of the rubric

Information Sheet

Implementation:

1. Give the student the rubric and information sheet
2. Share resources with the student
3. Help them generate other ways to find information
4. Have the student select a career—teacher approve the career choice
5. Have the student independently look for information the career
6. Use the Information sheet as a guide to ensure all areas are covered
7. Offer the students prompts for discussion/reflection
8. Interview the student about the career/score rubric based on the interview
OR have the student write a report and score the rubric based on the report
